Absolent Group

Absolent Group's subsidiary Absolent AB wins additional order from an American car manufacturer

During the autumn, Absolent AB secured a large order worth over 10 MSEK from a large American car manufacturer. Now, Absolent has won the next phase and received orders worth over another 10 MSEK with the latest single order being above 8 MSEK. In total the project value has surpassed 20 MSEK.

In close collaboration with the customer Absolent continues the important work of improving the air quality both in and outside the factory. The result is a dramatically reduced environmental impact and improved work environment for the employees.

"We are very pleased with having been able to deliver on the customers high expectations in the first phase of the project and having been rewarded with their trust once again. We look forward with confidence to the continuation of our collaboration and bringing them a world class working environment", comments Andreas Johansson, President APAC at Absolent AB.

The order includes complete filter units, with electrical controls and installation for oil smoke and mist. This phase of the project will be completed during the first half of 2019.
